MANDEEP YADAV

B.TECH STUDENT

PROFILE

Proficient in programming and machine learning. Demonstrated skills in applying AI algorithms to real-world problems through academic projects and coursework. Eager to leverage technical expertise and innovative thinking to contribute to cutting-edge Ai initiatives.

EDUCATION

2024-2028

GLA UNIVERSITY

B. tech. Computer science in specialisation with artificial intelligence and machine learning.

PROJECTS

- Store score: -

Performance tracking system by storing and comparing scores in a file, enabling progress monitoring over time.

- Resume Shortlister:-

Shortlist the candidate on bases of keywords. It give the score of every resume uploaded. Uploading format is pdf.

- Data ETL pipeline:-

Created an ETL pipeline for extracting , transforming and loading COVID-19 dataset.

- Hybrid Chatbot*:-

Created an AI-powered voice assistant with natural language processing. Implemented features like recognizing user preferences and executing (like alexa,siri). It works online and offline both.

- Travel Assistant app*:-

Help people to travel around the India suggest the location of a particular state or city, images of places, expenses (traveling, stays, others, etc.). Descripstion provided by app user who travel and can earn rewards.

- GLACare*:-

AI-driven predictive health platform ingesting real-time wearable data via Kafka, running LSTM anomaly detection models, and delivering live patient risk scores.

SKILLS

- Domain Skills – python, MySQL, , HTML, CSS, JS, PowerBi, Figma, pandas, effective Ai useage.
- Soft skills – Teamwork, critical thinking, adaptability.

CERTIFICATION AND TRAININGS

- Microsoft azure AZ-900 certificate course.
- Ai-900

LANGUAGES

- Hindi
- English

PARTICIPANT AT HACKATHONS

- Internal Smart India Hackathon
- TechRhythm'25 at ITM University, Gwalior
- TechNavya at GLA University, Mathura
- IIT madras online coding test
